Hospital Updates:

Dignity Health in Partnership to Open Los Angeles Surge Hospital This Monday

Dignity Health has partnered with the state of California, Los Angeles County, and Kaiser Permanente to open the Los Angeles Surge Hospital (LASH), to help handle the expected overflow of COVID-19 patients. Located on the campus of the former St. Vincent Medical Center in central Los Angeles, LASH will operate as a dedicated referral hospital for **COVID-19 patients only**, and will not have an emergency room or accept walk-in patients. It will serve as a resource for hospitals across LA and California who are at or nearing surge capacity.

LASH will be a "transfer only" hospital, and the LA County Medical Alert Center will be responsible for coordinating the intake and transfer of patients from these other facilities. It is scheduled to open on **Monday, April 13**, initially with thirty-one beds with ICU capability.
